

Jammu and Kashmir RURAL

ANALYSIS BASED ON DATA FROM HOUSEHOLD SURVEY. 19 OUT OF 22 DISTRICTS*
Data is not presented where sample size is insufficient.

Enrollment trends: Children aged 3-8 (Foundational Stage)

Exposure to developmentally appropriate activities from a young age and growing up in a supportive learning environment helps children develop strong foundations for learning. Major education policy documents in India now recognise these facts. ASER 2024 data for the "foundational stage" (age 3-8) is helpful in understanding the current status of schooling and learning so that evidence can inform actions for ensuring that children enter school at the right age and are ready for formal schooling.

Table 1: % Children enrolled in different types of pre-schools and schools. By age. 2022

Table with 9 columns: Age, Pre-school (Anganwadi, Govt pre-primary, Pvt LKG/UKG), School (Govt, Pvt, Other), Not in pre-school or school, Total. Rows for Age 3 to Age 8.

Table 2: % Children enrolled in different types of pre-schools and schools. By age. 2024

Table with 9 columns: Age, Pre-school (Anganwadi, Govt pre-primary, Pvt LKG/UKG), School (Govt, Pvt, Other), Not in pre-school or school, Total. Rows for Age 3 to Age 8.

Chart 1: % Children age 3-5 not enrolled anywhere. 2018, 2022, 2024

Key takeaways

- Increase in enrollment in government pre-primary classes for children aged 3-5: Between 2022 and 2024, the percentage of 3-year-old and 4-year-old children enrolled in government pre-primary classes rose from 4.6% and 15.1% to 8.6% and 20.8% respectively. Similarly, at age 5, enrollment in government pre-primary classes increased slightly from 22.4% to 27.1% between 2022 and 2024 (Tables 1 and 2). This data needs to be kept in mind while planning for this age group.
- Decline in proportion of children not enrolled in preschool at age 3 since 2018: The percentage of children aged 3 who are not enrolled anywhere has declined from 24.2% in 2018 to 11.9% in 2024 (Chart 1). These figures indicate progress towards universal pre-primary coverage.
- Decrease in 'underage' enrollment in Std I: The percentage of children who are 'underage' (age 5 or below) enrolled in Std I in government and private schools has decreased from 22.9% in 2018 to 13.4% in 2024 (Table 3).

Table 3: % Children aged 5 or below enrolled in Std I. By school type. 2018, 2022, 2024

Table with 4 columns: Year, All, Govt, Pvt. Rows for 2018, 2022, and 2024.

*The number of districts in the state is based on Census 2011, which has been used as the sampling frame for ASER surveys since 2016.

Data is not presented where sample size is insufficient.

Table 4: Performance of states: % Children not enrolled anywhere by age and % children in Std I who are "underage" (age 5 or below). 2018, 2022, 2024

State	% Children not enrolled anywhere. By age. 2018, 2022, 2024									% Children who are "underage" (age 5 or below) enrolled in Std I. By school type. 2018, 2022, 2024

1. Andhra Pradesh was bifurcated into Telangana and Andhra Pradesh in 2014. As a result, the sample frames of Census 2011 do not have the new state divisions. Of the 22 districts in undivided Andhra Pradesh, 9 rural districts are located in Telangana and the remaining 13 districts are located in Andhra Pradesh. ASER estimates for the two states are based on this separation of districts.

2. Estimates for the Union Territories of Ladakh and Jammu and Kashmir have been presented in a combined form for comparability with ASER estimates of previous years.

3. ASER 2024 was not conducted in Goa and Manipur.

Data is not presented where sample size is insufficient.

Foundational learning in Std II

Achieving Foundational Literacy and Numeracy (FLN) in primary school is a national priority (NEP 2020). The policy states that every student will attain foundational literacy and numeracy by Std III. The tables below describe reading and arithmetic levels in Std II. Why should we focus on Std II? At the time of testing for ASER 2024, children would have completed about half of their academic year in Std II. Therefore, it is important to track children's progress and understand how far they have come in their journey of meeting FLN goals.

Table 5: % Children enrolled in Std II. By school type. 2024

% Children in Std II enrolled in	Govt	Pvt	Total
	53.5	46.5	100

Chart 2: % Children enrolled in Std II. By age and school type. 2022 and 2024

Table 6: Reading and arithmetic levels of children in Std II. By age and school type. 2022 and 2024

Age	% Children who can at least read words		% Children who can at least recognise numbers till 99	
	2022	2024	2022	2024
Government schools				
Age 6 or below	27.3		27.3	
Age 7	42.1	45.2	42.1	59.3
Age 8 or above	52.4	49.4	52.4	66.7
All	46.0	46.2	62.8	63.1
Private schools				
Age 6 or below	DATA INSUFFICIENT			
Age 7	81.1	74.0	91.3	85.4
Age 8 or above	79.6	84.8	90.8	93.0
All	77.3	79.8	88.1	88.3

Key takeaways

- Age matters for learning outcomes:** Across schools, children at age 8 and above are doing better than younger children in the same grade in 2024. In government schools, the percentage of children aged 8 or above who can at least recognise numbers till 99 is 66.7%, as compared to 59.3% of children aged 7 (Table 6). This shows that age of entry and age composition are important structural features of early grades in schools.
- Children perform better in arithmetic than reading across schools:** In 2024, 63.1% of children enrolled in government schools were able to at least recognise numbers till 99, while only 46.2% could at least read words. Similarly, 88.3% of private school students could at least recognise numbers till 99, but only 79.8% could at least read words.
- Private school students continue to perform better in reading and arithmetic:** In 2024, 79.8% of private school students could at least read words, compared to 46.2% in government schools. Similarly, 88.3% of private school students could at least recognise numbers till 99, while only 63.1% of government school students could do so (Table 6).

Reading tool

Std II level text

Gita is a little girl. Her mother gave her a book. It had lots of stories and nice pictures. Gita read it every morning on her way to school. She learned many words. That made her teacher happy. The teacher gave Gita another book. It had more stories. She showed it to all her friends.

Std I level text

Amar goes to the market. It is very far away. He takes the bus. The bus takes four hours.
