Enrollment trends: Children aged 3-8 (Foundational Stage)

Exposure to developmentally appropriate activities from a young age and growing up in a supportive learning environment helps children develop strong foundations for learning. Major education policy documents in India now recognise these facts. ASER 2024 data for the “foundational stage” (age 3-8) is helpful in understanding the current status of schooling and learning so that evidence can inform actions for ensuring that children enter school at the right age and are ready for formal schooling.

Chart 1: % Children age 3-5 not enrolled anywhere. 2018, 2022, 2024

Key takeaways

- **High enrollment in anganwadi for children aged 3-4 years:** In 2024, the percentage of 3-year-old and 4-year-old children enrolled in anganwadis is 75.3% and 64.9% respectively (Table 2). This data needs to be kept in mind while planning for this age group.
- **Sharp decline in proportion of children not enrolled in preschool at age 3 since 2018:** The percentage of children aged 3 who are not enrolled anywhere has declined from 17.3% in 2018 to 12.3% in 2024 (Chart 1). These figures indicate progress towards universal pre-primary coverage.
- **Decrease in ‘underage’ enrollment in Std I:** The percentage of children who are ‘underage’ (age 5 or below) enrolled in Std I in government and private schools has decreased since 2018. In 2018, the percentage of ‘underage’ children in government schools was 37.3%. This percentage has decreased to 26.5% in 2024 (Table 3).

Table 3: % Children aged 5 or below enrolled in Std I. By school type. 2018, 2022, 2024

1. Andhra Pradesh was bifurcated into Telangana and Andhra Pradesh in 2014. As a result, the sample frames of Census 2011 do not have the new state divisions. Of the 22 districts in undivided Andhra Pradesh, 9 rural districts are located in Telangana and the remaining 13 districts are located in Andhra Pradesh. ASER estimates for the two states are based on this separation of districts.

2. Estimates for the Union Territories of Ladakh and Jammu and Kashmir have been presented in a combined form for comparability with ASER estimates of previous years.

3. ASER 2024 was not conducted in Goa and Manipur.

Data is not presented where sample size is insufficient.

Foundational learning in Std II

Achieving Foundational Literacy and Numeracy (FLN) in primary school is a national priority (NEP 2020). The policy states that every student will attain foundational literacy and numeracy by Std III. The tables below describe reading and arithmetic levels in Std II. Why should we focus on Std II? At the time of testing for ASER 2024, children would have completed about half of their academic year in Std II. Therefore, it is important to track children’s progress and understand how far they have come in their journey of meeting FLN goals.

Key takeaways

- Majority of Std II students are in government schools:** In 2024, 72.6% of children in Std II were enrolled in government schools, while only 27.5% attended private schools (Table 5).
- Improvement in reading and arithmetic levels across government and private schools:** The overall proportion of children enrolled in both government and private schools who were able to at least read words and at least recognise numbers till 99 improved from 2022 to 2024. For example, in government schools, the percentage of children who can at least read words increased from 24.2% to 33.9% between 2022 and 2024 (Table 6).
- Learning levels remain lower in government schools as compared to private schools:** While learning levels in both reading and arithmetic have increased in government schools, a significant gap remains in comparison to private schools. For example, In 2024, only 33.9% in government schools could at least read words, as compared to 70.7% in private schools (Table 6).

सावन का महीना था। आसमान में बहुत काले-काले बादल छाए थे। ठंडी-ठंडी हवा चल रही थी। मुझे झूला झूलने का मन किया। बड़े भैया एक मोटी सी रस्सी लेकर बाहर आए। भैया ने रस्सी को पेड़ से लटकाकर झूला बनाया। सब ने मिलकर खूब झूला झूला। बाकी बच्चे भी आकर मजे से झूलने लगे। झूलते-झूलते रात हो गई।
