### Enrollment trends: Children aged 3-8 (Foundational Stage)

Exposure to developmentally appropriate activities from a young age and growing up in a supportive learning environment helps children develop strong foundations for learning. Major education policy documents in India now recognise these facts. ASER 2024 data for the “foundational stage” (age 3-8) is helpful in understanding the current status of schooling and learning so that evidence can inform actions for ensuring that children enter school at the right age and are ready for formal schooling.

**Chart 1: % Children age 3-5 not enrolled anywhere. 2018, 2022, 2024**

### Key takeaways

- **High enrollment in anganwadi for children aged 3-4 years:** In 2024, the percentage of 3-year-old and 4-year-old children enrolled in anganwadis is 82% and 74.5% respectively (Table 2). This data needs to be kept in mind while planning for this age group.
- **Decline in proportion of children not enrolled in preschool at age 3 since 2018:** The percentage of children aged 3 who are not enrolled anywhere has declined from 8.7% in 2018 to 3.7% in 2024 (Chart 1). These figures indicate progress towards universal pre-primary coverage.
- **Decrease in ‘underage’ enrollment in Std I:** The percentage of children who are ‘underage’ (age 5 or below) enrolled in Std I in government and private schools has decreased from 7.8% in 2018 to 4% in 2024 (Table 3).
- **Enrollment in private institutions has increased:** While enrollment in government institutions remains high, enrollment in private institutions has increased slightly for most ages between 2022 and 2024. For example, at age 7, 15.2% of children were enrolled in private schools in 2022 as compared to 25.4% in 2024 (Table 1 and 2).

1. Andhra Pradesh was bifurcated into Telangana and Andhra Pradesh in 2014. As a result, the sample frames of Census 2011 do not have the new state divisions. Of the 22 districts in undivided Andhra Pradesh, 9 rural districts are located in Telangana and the remaining 13 districts are located in Andhra Pradesh. ASER estimates for the two states are based on this separation of districts.  
2. Estimates for the Union Territories of Ladakh and Jammu and Kashmir have been presented in a combined form for comparability with ASER estimates of previous years.  
3. ASER 2024 was not conducted in Goa and Manipur.

Data is not presented where sample size is insufficient.

## Foundational learning in Std II

Achieving Foundational Literacy and Numeracy (FLN) in primary school is a national priority (NEP 2020). The policy states that every student will attain foundational literacy and numeracy by Std III. The tables below describe reading and arithmetic levels in Std II. Why should we focus on Std II? At the time of testing for ASER 2024, children would have completed about half of their academic year in Std II. Therefore, it is important to track children's progress and understand how far they have come in their journey of meeting FLN goals.

## Key takeaways

- Enrollment preference towards government schools in Std II:** The majority of children enrolled in Std II (75%) attend government schools, with only 25% attending private schools (Table 5).
- Improvement in learning levels across schools:** The overall proportion of children enrolled in both government and private schools who were able to at least read words and at least recognise numbers till 99 improved from 2022 to 2024. For example, the percentage of children in government schools who could at least read words improved from 57.6% in 2022 to 66.6% in 2024. (Table 6).
- Learning levels in government and private schools are similar for reading but not for arithmetic:** In 2024, the percentage of children who can at least read words is 66.6% in government schools and 69.1% in private schools (Table 6). In contrast, the percentage of children who can at least recognise numbers till 99 in 2024 is 54.5% in government schools, far lower than the figure of 73.8% in private schools (Table 6).

एक होती आजी. एकदा तिला तिच्या बहिणीचे पत्र आले. आजीला तिने आपल्या घरी पूजेला बोलाविले होते. आजीने आपल्या सामानाचे गाठोडे बांधले. निघताना तिने घराला कुलूप लावले. ती प्रवासाला पायी निघाली. वाटेत आजीला झरा दिसला. चालून चालून थकल्याने ती झऱ्याकाठी बसली. थोडे खाऊन ती थंड पाणी प्यायली आणि झोपी गेली. काही वेळाने समोरून एक टांगा आला. टांग्यातील माणसाने तिला बहिणीकडे सोडले. आजीने त्याचे आभार मानले आणि ती घरात गेली.
