

## Mizoram RURAL

ANALYSIS BASED ON DATA FROM HOUSEHOLDS. 13 OUT OF 13 DISTRICTS\*

Data is not presented where sample size is insufficient.

### Enrollment trends: Children aged 3-8 (Foundational Stage)

Exposure to developmentally appropriate activities from a young age and growing up in a supportive learning environment helps children develop strong foundations for learning. Major education policy documents in India now recognise these facts. ASER 2024 data for the “foundational stage” (age 3-8) is helpful in understanding the current status of schooling and learning so that evidence can inform actions for ensuring that children enter school at the right age and are ready for formal schooling.

**Table 1: % Children enrolled in different types of pre-schools and schools. By age. 2022**

Age	Pre-school			School			Not in pre-school or school	Total
	Anganwadi	Govt pre-primary	Pvt LKG/UKG	Govt	Pvt	Other		
Age 3	93.3	1.1	1.3	1.8	0.2	0.0	2.3	100
Age 4	64.5	10.3	15.4	6.3	2.2	0.0	1.4	100
Age 5	24.3	16.6	29.4	22.6	5.4	0.4	1.4	100
Age 6	4.6	11.8	22.5	46.2	13.1	0.9	1.0	100
Age 7	0.7	4.7	12.0	51.1	29.8	1.2	0.5	100
Age 8	0.4	2.0	2.1	59.6	34.9	0.3	0.8	100

**Table 2: % Children enrolled in different types of pre-schools and schools. By age. 2024**

Age	Pre-school			School			Not in pre-school or school	Total
	Anganwadi	Govt pre-primary	Pvt LKG/UKG	Govt	Pvt	Other		
Age 3	87.6	2.4	1.2	0.2	0.5	0.0	8.1	100
Age 4	65.3	12.6	14.7	3.1	1.3	0.0	3.0	100
Age 5	20.9	21.1	37.4	15.2	3.8	0.2	1.4	100
Age 6	6.1	13.8	27.1	39.8	11.9	0.7	0.5	100
Age 7	1.1	5.7	9.3	46.3	37.5	0.2	0.0	100
Age 8	0.2	1.2	2.7	49.8	45.8	0.0	0.4	100

**Chart 1: % Children age 3-5 not enrolled anywhere. 2018, 2022, 2024**

### Key takeaways

- **High enrollment in anganwadi for children aged 3-4 years:** In 2024, the percentage of 3-year-old and 4-year-old children enrolled in anganwadis is 87.6% and 65.3% respectively (Table 2). This data needs to be kept in mind while planning for this age group.
- **Decrease in ‘underage’ enrollment in Std I:** The percentage of children who are ‘underage’ (age 5 or below) enrolled in Std I in government and private schools has decreased from 23.4% in 2018 to 13.4% in 2024 (Table 3).
- **Enrollment in private schools has increased:** For ages 6 to 8, enrollment in private institutions has increased between 2022 and 2024. For example, at age 7, 29.8% of children were enrolled in private schools in 2022 as compared to 37.5% in 2024 (Table 1 and 2).

**Table 3: % Children aged 5 or below enrolled in Std I. By school type. 2018, 2022, 2024**

Year	All	Govt	Pvt
2018	23.4	24.2	21.5
2022	19.7	24.1	10.7
2024	13.4	20.1	4.8

\*The number of districts in the state is based on Census 2011, which has been used as the sampling frame for ASER surveys since 2016.

Table 4: Performance of states: % Children not enrolled anywhere by age and % children in Std I who are "underage" (age 5 or below). 2018, 2022, 2024

1. Andhra Pradesh was bifurcated into Telangana and Andhra Pradesh in 2014. As a result, the sample frames of Census 2011 do not have the new state divisions. Of the 22 districts in undivided Andhra Pradesh, 9 rural districts are located in Telangana and the remaining 13 districts are located in Andhra Pradesh. ASER estimates for the two states are based on this separation of districts.

2. Estimates for the Union Territories of Ladakh and Jammu and Kashmir have been presented in a combined form for comparability with ASER estimates of previous years.

3. ASER 2024 was not conducted in Goa and Manipur.

Data is not presented where sample size is insufficient.

Foundational learning in Std II

Achieving Foundational Literacy and Numeracy (FLN) in primary school is a national priority (NEP 2020). The policy states that every student will attain foundational literacy and numeracy by Std III. The tables below describe reading and arithmetic levels in Std II. Why should we focus on Std II? At the time of testing for ASER 2024, children would have completed about half of their academic year in Std II. Therefore, it is important to track children’s progress and understand how far they have come in their journey of meeting FLN goals.

Table 5: % Children enrolled in Std II. By school type. 2024

% Children in Std II enrolled in	Govt	Pvt	Total
	60.4	39.6	100

Chart 2: % Children enrolled in Std II. By age and school type. 2022 and 2024

Table 6: Reading and arithmetic levels of children in Std II. By age and school type. 2022 and 2024

Age	% Children who can read at least words		% Children who can recognise at least 2-digit numbers (11-99)	
	2022	2024	2022	2024
Government schools				
Age 6 or below	DATA INSUFFICIENT			
Age 7	60.4	66.9	84.1	85.7
Age 8 or above	60.0	67.1	78.1	87.1
All	58.9	65.7	80.0	85.6
Private schools				
Age 6 or below	DATA INSUFFICIENT			
Age 7				
Age 8 or above	78.1	86.1	89.9	95.4
All	77.1	80.9	87.8	92.5

Key takeaways

- Majority of Std II students are in government schools:** In 2024, 60.4% of children in Std II were enrolled in government schools, while only 39.6% attended private schools (Table 5).
- Improvement in reading and arithmetic levels across government and private schools:** The overall proportion of children enrolled in both government and private schools who were able to at least read words and at least recognise numbers till 99 improved from 2022 to 2024. For example, in government schools, the percentage of children who can at least read words increased from 58.9% to 65.7% between 2022 and 2024 (Table 6).
- Learning levels remain lower in government schools as compared to private schools:** While learning levels in both reading and arithmetic have increased in government schools, a gap remains in comparison to private schools. For example, in 2024, 65.7% of children could at least read words in government schools, as compared to 80.9% in private schools (Table 6).
